THE LATE POSTMASTER GENERAL.—The Hon. aron Vail Browns who died at Washington on the 8th instant, was born in Brunswick County, Virginia, on the 15th of August, 1795. He graduated at the University of North Carolina, Chapel Hill, in 1814, and in the following year removed, with his parents, to Giles County Tennessee. Later in the same year he commenced the study of law, under Judge Trimble, in Nashville, Tenn., which he pursued with becoming diligence. On commencing the practice of law at Nashville, he formed a partnership connection with the late President Polk, which was continued until the election of the latter to Congress, who then abandoned law

In 1821 Mr. Brown was elected to the Tennessee Logislature, from which date to 1832 he continued to sit in that House. In 1839 he was elected a Representative to Congress, and to that capacity, it is said, he distinguished himself by close application to his Congres-sional duties, at the same time that he devoted simself with considerable success to the prac-

tico of his profession. In 1845 he was elected Governor of Tennes see, and on the expiration of his gubernatorial term, he retired, comparatively, from public life. In 1850 we find him as delegate to the Southern Convention at Nashville, on which occasion he presented the report known as the Tennessee Platform. This platform be reported at the Democratic Baltimore Convention in 1852, by which it was adopted,

He occupied no public position until the election of Mr. Buchanau, when he was appointed Postmaster-General (in 1857) by the President, whose cause he had warmly supported. Of the deceased's capabilities as a business man, the Chicago Press says:

"Mr. Brown had no special talent, except that which may be called a talent for partisanship. All his life he was a consistent upholder of the supposed interests of the South and her institutions; hence uniformly acted with the Democratic party. His success in achieving station was more remarkable than his ability to discharge the daties thereof with credit. He was evidently unequal to the management of the Post-office Department; and his proposed remedies for the difficulties encountered in the administration of its affairs, are conclusive that he lacked the breadth of intellect and firmness of purpose which are necessary to a statesman. Personally he was, so far as we are informed, a gontleman of agreeable and kindly qualities and of acknowledged integrity. His death makes the first vacancy in the Cabinet to which he belonged."

Mr. Marson, third assistant Postmaster, who died on Sunday last, had retained his place during several administrations. The practical guidance of the financial affairs of the Depart men were in his hands, which, it is said, he conducted with accuracy and skill. He is described as an efficient officer, a warm friend and a man of blameless life. He was a native

MAN MURDREED .- Our citizens will readily recollect the "Prisoner," Oliver B. Stone, who lectured several times in the City Hall, last autumn, on Prison Life, Temperance, etc., etc. This mun was found dead, on Sunday, upon the track of the Springfield, Mt. Vernon and Pittsburg Railroad, near Delaware. A party of persons were coming down the road on a hand-car, and passed over his body before they could stop the car. Going back, they found that he had but just died, and discovered substantial evidence that he had been murdered and placed upon the track to hide the deed. Two pools of blood were noticed, about ten feet apart. Stone had been on a drunken spree in the vicinity for several days, was known to have a good deal of money about his person, and was probably killed in order that it might be obtained, as none was found with him.

It will be recollected that there was great mystery and incongruity about Stone's lectures, and that those last delivered bordered upon profanity, if not vulgarity. He had relations in Geauga County. His wife is the daughter of one of the founders of Oberlin College. No traces of the murderer or murderers have been discovered .- Springfield Journal, 8th.

MANUSETTED .- The Zanesville (O.) Courier states that 18 manumitted slaves arrived in that city on Priday last, consisting of nine males and nine females—a father and mother the ages of seven and thirteen. Their former owner, Mr. Barrett, is a resident of Lincoln County, Ky., and was offered \$20,000 for them the day before he set them free, but refused the offer with a remark that he would not take 859,000, the motive influencing him being of higher character than that of gain. Mr. Bar rett intends to purche se a farm in that neighborhood upon which to locate them.

CHESS .- The first game of the telegraph chess match between Cleveland and Detroit came off on Monday evening last. At the eighth move an adjournment till Wednesday took place. There is as yet no advantage on either side, the contest being pretty equally developed. The position bids fair to be deeply interesting and complex. The following are the moves: Detroit.

Armidson, a Swede, ran away with the young and beautiful wife of his old familiar friend, Mr. Bernard Beskon, from Boston, a few days since. The guilty pair, it is thought, fled to this city. Mrs. Beston has been a mother only about eighteen months.

> tem or Swebenbergian Church. A New Dongs .-- On Saturday last a lad preanted a check to the Importers and Traders' Bank, New York, for \$237, which was paid him by the teller, in gold. He had scarcely crossed the street before he was stopped by a man and accused of having presented a lorged check, and at the same time demanded the money. The youth, in the confusion of the moment, gave up the money, with which the secondrel quickly disappeared. This is evidently a new dodge of the chevaliers d'industrie, and should be known by the business com-

Union, of the 5th, has the following: "Another Sickles tragedy has this day occurred at Batavia. David Curry, an Irishman, shot John Foster, an Englishman, this forencon. His wife had been keeping house for Foster some time, and Curry requested her to come home. She refused. They quarreled last night. Foster and two other men beat Curry badly. Foster was shot just above the abdonight. Foster and two other men beat Curry badly. Foster was shot just above the abdomen, the ball passing through his body, and lodging in a fence post. Foster died a few hours afterward. Foster was passing on the opposite side of the street from Curry's house, and on his way to his work. He was about thirty years of age, and a laborer. Curry was immediately arrested and committed to jail. There is considerable excitoment in Batavia in There is considerable excitement in Batavia in

regard to it." The following story is told of a philosophicat chap "down in Egypt," whose intended jilted him after he had got the license. He was acting in the capacity of constable at the time, so the proper course to be pursued readily occurred to his mind. He returned the license to the clerk's office at once, with this indorsements to he was a course to he was a cours and this was the end of the business as far as

he was concerned. HEIR WANTED .- Frank Heath or Win. Dowe, of London, England, who sailed on the lakes in the years 1849 and 1850, and probably two or three subsequently, is, by the decease of a relative in England, entitled to some property there. Any information in regard to him will be thankfully received by his brother, Mr. John Dewe, Toronto, Canada.

nies are also advancing wages. The iron for the Toledo & Dayton R. R. is to be laid down in Toledo and Lima by the Ist April. Within 90 days from that date the entire line will be laid.

An ice-bent has been built at La Crosse, for running upon the top of the ice in mid-winter. A trial trip was recently made, when the novel craft ran at the rate of 4 miles an hour. The speed, no doubt, can be greatly increased.

A CUTANEOUS EPIDENIC, called the "Rosemeastes, is prevailing to a considerable extent in Zanesville. It is not regarded as contagious, and generally requires but little medical treatment, except when complicated with internal inflammations.

MEMPHIS AVALANCHE.-The proprietors of this paper, in an extra of the 3d, refer to their loss by the recent fire which consumed their office, and announce that they have made arrangements for an early resumption of their publication. They ascribe the origin to the malice of an incendiary, directed against them-

HOME INTERESTS.

Medical Electricity .- Dr. Chamberlain speedily cures all Nervous and Chronic Diseases by the application of Electricity, Office corner of Sixth and Walnut streets, Bacon's Building.

Another Remarkable Cure--Investigation Challenged .- It is easy to cry humbug, where only declarations of interested parties are made in opposition to long established theories, but Dr. Ayer, of the "Throat and Lung Institute," No. 30 West Fourth street, has no occasion to speak of the eminent superiority of his practice, "Medical Inhalations," over all other modes of treatment in all diseases of the Throat and Lungs. His patients speak for him, and the high character of their letters command full confidence and respect.

CINCINNATI, March 7, 1859. I have suffered from chronic inflammation of the throat, enlargement of the tensils and uvula for several months, and had experienced great inconvenience and difficulty in reading and singing, in addition to constant pain. I had a constant backing cough and dryness of the throat. It was a decidedly bad case. All other remedies having failed to cure or relieve me, I applied to Dr. I. Winslow Ayer, of the "Throat and Lung Institute," No. 30 West Fourth street, after having first fully satisfied myself of his eminent skill in the treatment of such diseases. He prescribed Medicated Inhaand their children and grand-children, and lation and other remedies, and I am happy to one mulatto woman with four boys between say that he has effected an entire and perfect care. say that he has effected an entire and perfect cure, and I cordially commend him to the fullest confidence of all suffering from Throat and Lung T. graphs are the admiration of all. Call and see them.

G. W. Stillman is doing a rushing business at his Gallery on Fifth street. His Pictures are proverbial for their beauty and originality.

Grover & Baker's Sewing Machines .-We do a favor to housekeepers and tradesmen who have much sewing to do, by directing their attention to Grover & Baker's unequaled Sewing Machines, 58 West Fourth street. The undeniable superiority of these machines is evident to any one who will examine them while in operation, and also the work excouted by them. The case with which they are operated, the utter absence of distracting racket that attends their movements, their simplicity of arrangement, and the unripable character of the seams they sew-all combine to make them, in our opinion, the best machines in use. The almost incredible amount of work which they can be made to accomplish under the management of an expert person, recommends them for use in all mailties, and in

shops where stitching is performed. Singer's Sewing Machines.-The imnense increase in the demand for these admirable machines-it has trobled within four nonths-indicates the reviving prosperity of the country. The prices of our machines have been greatly reduced. J. Skardon, ag't.

No. 30 WEST FOURTH STREET.

No. 30 WEST FOURTH STREET.

The following letter is from one of our well knewn merchants. Whatever he indorses must be of sterling value. It is well worth reading:

CISCINNATI, February I.5, 1859.

About a month ago Leadled at Dr. Ayer's "Throat and Long Institute." 20 West Fourth street, for treatment for Tomelillis and Chronic Inflammation of the Throat. The tomils and wuls (or pulate) were so much enlarged that there seemed to be but one course to pursue, and that was to cut them off; this I had been told by other physicians, who had absocandidly old me they could not cure me. Dr. Ayer made a areful examination and pronounced excision unnecessary, and mescribed Medicated Indulation and topical applications, with general treatment, and the result is a perfect full state of the infimumation has been alleased, and the towards and palate reduced to their natural cite and position. I now have no sorreness or giffenity whatever of the throat, and FEEL TAY I AN NOW PRINTED IN WILL.

I Cordinal command Dr. Ayer as askillful and competent physician in his speciality, and weethy of all antidone. His undeed treatments rational, pleasant, and certainly in my case successful, and I have any reason to believe the Dortor is equally successful in all other cases while I have been under treatment at the Institute.
